Why Gotriphai

Run like a hotel, not a tour desk

Our founder came from hotel concierge and operations, and managed patient and family travel for a leading private hospital. Late arrivals, moving dates and last-minute changes are handled — and every booking, change and cost is confirmed in writing.

Halal and alcohol-free by default — not on request

Halal-certified or Muslim-run kitchens for every group meal, prayer times in the daily schedule, prayer space at every venue, and alcohol-free evenings. Arabic, Burmese, Bengali, Indonesian and Chinese-speaking support.

One coordinator, start to finish

One named person runs your file from the first brief to the final report, with a 24/7 emergency line while your guests are in Thailand.

Transport Network · Hotel Sourcing · Interpreters & Guides · On-ground Coordination

Muslim-friendly operations are standard in every service: halal meals arranged, prayer times and space in the schedule, and Arabic, Burmese, Bengali, Indonesian and Chinese-speaking support.

Health travel — scope. We arrange travel, accommodation, transport, wellness bookings and interpreters for daily needs. We do not provide medical services, medical advice or medical interpreting. Medical decisions are made between the patient and their licensed provider.
